## Top 10 Rules for Electric Safety

### 1. Label the pictures

PLUG

OUTLET (socket BrE)

EXTENTION CORD

ELECTRICAL SUBSTANTION

POWERLINE

SAFETY CAP

KITE

LADDER

CHAINSAW

## 2. Cut out the pictures and match them to the safety tips

## 3. Write DON'T in front of the safety tips if necessary.

1. \_\_\_\_\_ plug a bunch of stuff into one outlet or extension cord.

It could damage the electrical system in your house or even cause a fire.

2. \_\_\_\_\_ make sure all electric cords are tucked away, neat and tidy.

Pets might chew on electrical cords, and people might trip and fall.

3. \_\_\_\_\_ ever climb the fence around an electrical substation.

If a ball or pet gets inside the fence, ask a grown-up to call the electric company - they'll come and get it out for you.

**4. \_\_\_\_\_ yank an electrical cord from the wall.**

Pulling on a cord can damage the appliance, the plug or the outlet.

**5. \_\_\_\_\_ fly your kite far away from powerlines or substations.**

The kite and the string may conduct electricity - sending it right through you to the ground.

**6. \_\_\_\_\_ ask a grown-up for help** when you need to use something that uses electricity.

**7. \_\_\_\_\_ look up and look out for powerlines before you climb a tree.**

The electricity can go right through the tree branch - and right through you!

**8. \_\_\_\_\_ have a grown-up put safety caps on all unused electrical outlets.**

**9. \_\_\_\_\_ remind your mum or dad to watch out for power lines** when they're using a ladder, chainsaw or other outdoor equipment.

**10. \_\_\_\_\_ keep electrical stuff far away from water.**
